

PROFESSIONAL SUMMARY

Dynamic, highly analytical Project Manager and Operations Leader with a rich, cross-functional background spanning global customer support infrastructure, digital workflow automation, large-scale construction management, and critical healthcare environments. Proven track record driving end-to-end project lifecycles, mitigating steep financial risks (including saving \$250k/year in operations), and managing stakeholders across international boundaries. Combines the high-stakes critical thinking of clinical medical support with advanced technical architecture (Zapier, AI workflows) to engineer highly efficient, bulletproof operations.

CORE COMPETENCIES

PROJECT & OPS LEADERSHIP

Full Lifecycle Planning, Resource Allocation, On-site Construction Oversight, Stakeholder Engagement, Risk Mitigation, Process Mapping, Automation Strategy.

AUTOMATION & TECH

Zapier, Power Automate, Claude AI, Qualtrics, AlphaSense, Decipher, Billing.com, Toggl, Intercom, Zendesk, HubSpot, Text Line, Typeform, Docusign, Jira, Notion, Fleetio, Shopify, Microsoft Office.

PROFESSIONAL EXPERIENCE

Project Manager – Resort Construction and Management | Arcadia Resorts
(Contract)

Nov 2025 –
Present

- **Project Planning & Execution:** Direct the complete development lifecycle of resort properties from pre-construction conceptualization through final operational handover; define scopes, budgets, and milestones in alignment with stakeholder goals.
- **Cross-Functional Coordination:** Champion communication and alignment across a diverse team of architects, engineers, interior designers, external consultants, and specialized contractors to eliminate design gaps.
- **Construction & Site Management:** Drive daily on-site construction operations, tracking progress and auditing contractor performance to guarantee rigorous quality control, safety compliance, and adherence to building regulations.
- **Financial & Schedule Control:** Aggressively monitor cost variables and timelines, implementing tight tracking measures to keep major development phases strictly within approved financial parameters.
- **Stakeholder & Risk Management:** Serve as the central liaison between corporate ownership, project crews, and local authorities; proactively diagnose schedule risks, negotiate change orders, and deploy rapid resolutions to mitigate bottlenecks.
- **Operational Readiness:** Spearhead final structural testing, regulatory inspections, and operational handovers, providing critical strategic support for soft openings and long-term facility readiness.

- **Daily Operational Support:** Manage day-to-day operational functions, administrative tasks, and routine client project setups under minimal supervision to keep global business operations running seamlessly.
- **Workflow Automation & Architecture:** Architected and deployed end-to-end workflow automations utilizing Zapier, Claude AI, and native tool integrations to eliminate operational bottlenecks and scale efficiency.
- **System Access Management:** Engineered automated pipelines to streamline system onboarding and offboarding for clients, consultants, and FTEs, managing email provisioning, secure access control, and compliance documentation.
- **Vendor & Financial Operations:** Built custom automations for vendor management, invoice processing, and payment flows to reduce errors and accelerate vendor communication cycles.
- **Performance Optimization:** Monitored automated workflow error rates, systematically generating weekly progress reports and data-driven recommendations for continuous technical optimization.

Customer Support & QA Specialist | Health with Bec (Australia)

May 2025 – Mar 2026

- Managed inbound customer support triage via Intercom for an eCommerce health and weight loss brand, resolving complex account access, subscription cancellations, and program timeline adjustments.
- Executed manual functional and UI testing for the company's newly launched mobile application, successfully identifying bugs, broken links, and performance lags.
- Compiled structured usability and QA technical reports for the product development team to facilitate post-launch iterations.
- Administered the brand's online community, screening daily membership requests, enforcing strict group rules, and proactively filtering spam to maintain high-quality user engagement.

Customer Support Team Lead | Zoomo Pty Ltd

Jan 2024 – Present

- Led day-to-day operations for the global customer service team, implementing resource allocation strategies that optimized task completion and daily goal achievement.
- Conducted routine performance evaluations and feedback loops, developing targeted training sessions to elevate team capabilities and support quality metrics.
- Authored a comprehensive internal reference guide and overhauled macro libraries, significantly reducing response times and standardization gaps for support agents.
- Spearheaded a cross-functional review of the collections process; collaborated with external stakeholders to deploy a new tracking system and enhance debt collection methods.
- Established a structured user-feedback loop to translate customer pain points directly into actionable product and service improvements.

Customer Support - Escalations Specialist | Zoomo Pty Ltd

Feb 2021 – Jan 2024

- Managed remote support operations for 8 physical workshops across the United States and 1 in Canada, with ad-hoc coverage for UK and Australian markets.
- Audited financial records and successfully identified key tax discrepancies, developing a proactive resolution that protected the company from a potential **Saved \$250,000 / Year**.
- Maintained end-to-end management of Stripe dispute resolutions, systematically compiling evidence to maximize bank reversals and protect revenue.
- Collaborated closely with Field Operations Specialists to design and optimize high-risk procedures for asset repossession and stolen bicycle tracking.

Online English Teacher | Engoo

Nov 2016 – Feb 2021

- Delivered remote English language instruction to an international user base of non-native speakers.
- Formulated customized lesson plans, tracked individual student progress, and provided constructive feedback to accelerate language acquisition and retention.

Customer Service Representative | TeleTech (Telstra Account)

Feb 2015 – Apr 2017

- Handled high-volume customer inquiries, technical troubleshooting, and complex billing resolutions in the competitive telecommunications sector, specializing in Telstra AU Residential Billing, Mobility, and Sales operations.
- Consistently met customer satisfaction and first-contact resolution metrics by offering tailored service alternatives to maximize retention and loyalty.

Customer Service Representative | SYKES Philippines

Sep 2014 – Oct 2015

- Provided high-tier customer service and technical support within the telecom sector, focusing on AT&T Prepaid Mobility accounts.
- Assisted clients with line troubleshooting, plan optimization, and accurate billing resolutions while maintaining stringent service levels.

Monitor Clerk Assistant / Telemetrist | American Hospital Dubai (UAE)

Feb 2010 – Feb 2011

- Monitored real-time, critical basic ECG readouts and telemetry data across the Intensive Care Unit (ICU), Cardiac Intensive Care Unit (CICU), and step-down Wards.
- Maintained meticulous clerical records and clinical documentation to support medical staff in identifying patient cardiac trends and emergency changes.

Healthcare Assistant | American Hospital Dubai (UAE)

Feb 2009 – Feb 2010

- Delivered high-standard inpatient support and hands-on medical assistance within high-acuity environments, including the ICU and Cardiac Intensive Care Unit (CICU).
- Partnered with nursing and medical teams to maintain stringent infection controls and optimal patient safety standards.

- Managed primary administrative office operations, database entry, and corporate documentation.
- Supported consumer sales processes, client onboarding inquiries, and cross-functional communications.

Nursing Attendant | Philippine General Hospital

Jul 2006 – Jun 2008

- Provided comprehensive patient care and environmental control protocols within specialized areas, including the Post-Anesthesia Care Unit (PACU), OB Admitting Section, and OB Emergency Room (OB ER).
- Supported surgical and maternity units during peak critical admissions, streamlining patient handovers and administrative processing.
